

**DECATUR COUNTY RURAL ELECTRIC MEMBERSHIP CORPORATION  
GREENSBURG, INDIANA**

**SCHEDULE STL**

**STREET LIGHT SERVICE**

**Availability**

Available to any member-owner of the Corporation where 120 volt service exists within a reasonable distance. This will be non-metered service for street lighting.

**Character of Service**

Dusk to dawn street lighting service, in residential subdivisions, cities and/or towns, using photo-electric controlled equipment, street light fixture with lamp, pole, maintenance of the complete assembly and the cost of electrical operation are included in this service. Any additional investment required by the extension of secondary lines or additional transformers require a contribution by the member.

**Rate**

The monthly charge for each Street Light shall be as follows:

20,000 lumens HPS	\$ 8.75 per month
Decorative 150 watt high pressure sodium	\$ 12.00 per month

**Wholesale Power Tracker Clause**

See Appendix "A"

**Fuel Cost Adjustment**

See Appendix "A"

**Billing**

The Street Light charge shall be billed per the number of lights as a separate bill to the subdivision home-owner's association, city and/or town or other responsible party, and will be due by the time stated on the bill.

**Termination of Service**

The minimum length of service shall be for ten years. The member-owner may request termination of service after ten years of service, and the Corporation will remove its property upon such notice with reasonable diligence. A contract stating the minimum of ten years of service may be requested by the Corporation.

**Reconnect Charge**

When a Street Light or Street Lights are disconnected after ten year's service and reconnection is requested by the same customer group, a \$10.00 charge will be required to have service reconnected.
